# Let us **make your life easier!**

Cyclovac central vacuum systems adapt to your needs and lifestyle. For your daily cleaning, things become incredibly quick and simple. Clean everything, from the basement to the attic, using our high performance vacuum units with our practical and easy to use attachments.

Revolutionize your cleaning efficiency with the Retraflex®.

*What's handier than **a hose** that automatically stores itself?*

The **automatic dustpan** is a must for the kitchen.

The **vacuum inlets** are strategically placed.

The **WallyFlex**: the ideal tool for a quick clean.

## How does a central vacuum system work?

A stationary central vacuum unit installed in a secluded location (basement, garage, etc.).

Inlets from which you have access to your vacuum hose, that are connected to the vacuum unit by a piping system hidden within walls!

Pull out the hose length you need and you're ready to clean! It will then retract itself inside the walls with the simple suction strength of your central vacuum.

**Easy installation** in new buildings, as well as in existing homes!

Retraflex®

## Quick and simple cleaning

This retractable hose system  
is a must for the optimal use  
of your central vacuum.

*Retraflex®, patent pending.  
Not available in USA.*

# Never again will you need to store your hose in a closet and to carry it from one inlet to another!

› Pull out the length of hose you need at the moment.

› Pull the black handle to lock the hose and start the system automatically.

› To stop the vacuum, simply pull on the red switch to turn off the unit. Simply push the switch to restart.

› Push the handle to unlock the hose.

› Put your hand over the opening at the end of the hose to allow the hose to retract.

› Close the door to stop the system.

## Wireless remote control handle

The wireless control handle allows you to start and stop the system from where you are.

See the Retraflex in action at [retraflex.com](http://retraflex.com)

# Why choose Cyclovac?

## Quiet

Acoustic foam and rubber components soundproof the unit.

## Carbon dust filter<sup>1</sup>

Captures the fine black carbon dust produced by the unit's motor(s).

## Efficient

Durable and efficient motor with conical base to maximize air volume.

## Sturdy

Premium quality steel protected by thermohardening paint.

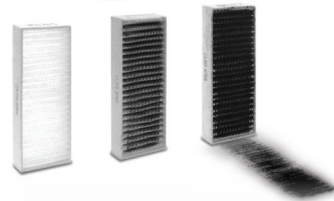

## Non-allergenic

Filters are either HEPA type (efficiency of 99.5% at 0.3 $\mu$ m) or provided with an antimicrobial treatment that prevents growth and proliferation of mold and bacteria which can cause allergies and some respiratory disorders.

## Powerful

The suction strength is maximal and constant, no matter the type of filtration chosen.

<sup>1</sup> Patented

Find your bags & filters  
on [cyclovac.com](http://cyclovac.com)

## High Efficiency Series

### Electrostatic filter bag

#### Efficient

The HEPA type tambourine filter protects the motor of your unit.

#### Powerful

Constant power despite of the volume of dust and debris inside the bag.

#### Hygienic

Nothing to handle; simply remove the bag and discard it! This series is recommended for people with dust allergies.

## Hybrid Series

### Hybrid filtration

#### Convenient

Your vacuum unit can be used with or without a bag, at any time! The choice is yours!

#### Versatile

- › Used with a bag: the dust and debris vacuumed is trapped inside the bag.
- › Used without a bag: filtration is ensured by a self-cleaning filter that captures microscopic particles.

#### Effective

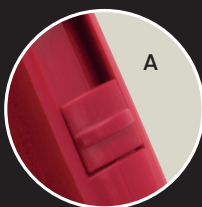

With or without a bag, you get a constant maximum power despite of the volume of dust and debris vacuumed.

## These little extras that will help you daily

With our numerous high quality attachments, clean everything thoroughly, from floor to ceiling!  
There is an attachment for every need.

## Premium Quality Hoses

**Ergonomic 360-degree swivel handle** with soft touch grip.

**Air flow control [A]** to manually increase or decrease air flow.

**Integrated switch [B]** to start and turn off the unit.

There is **an attachment** for every need.

## Meet Wally, Your New Butler

Discrete and very handy, the WallyFlex auxiliary hose is an essential tool to quickly clean the dryer lint filter or efficiently remove hair around the bathroom sink. Stretchable up to 7 m, it will even allow you to vacuum debris in the car, the garage and more! See Wally in action at [wallyflex.com](http://wallyflex.com)

## Deco Vac Vacuum Inlet:

Elegant, affordable and guaranteed for life, the Deco Vac superior quality inlet perfectly harmonizes with your decor. It is available in a wide array of colors and finishes.

*Inlets for every décor*

## Automatic Dustpan:

This famous tool is a must in the kitchen and bathroom. Just sweep dust and crumbs, open the dustpan with the tip of your toe, and make them disappear!
